

Invites you to participate in an
Emerson Extended Technology Entrepreneur Education Program

“Intellectual Property II, Antitrust”

A patent is literally the right to exclude others from practicing the protected method. This is the second part of training in this subject area and includes recent rulings from various US courts related to IP and licensing with discussion of antitrust issues in IP deals. Hot topics will include a segment focusing in the Ariad v. Lilly case, concerning whether sec. 112 carries a separate written description requirement.
